ABOUT US

The Mariano Rivera Save 653 Foundation is dedicated to providing children from impoverished families with life skills that will set them on the path to a brighter future.

In the United States, over 20% of children live in poverty, facing significant barriers to educational and economic success. These challenges are exacerbated in underprivileged areas where students often start highschool with literacy levels significantly behind their more affluent peers.

The Mariano Rivera Public Foundation confronts these inequalities head-on through targeted programs in these underserved communities.
